

September 2017

Dear Parent/Carer,

Year 5 Astronomy Afternoon, 22nd November 2017

We would like to invite your child to our Year 5 Astronomy afternoon, on Wednesday 22nd November. The event will run from 12:30pm until 3:00pm, to allow students time to get back to school for their usual end of day. Students will be accompanied and supported at the event by representatives from their own schools, with buses being arranged where required, to transport students to and from Meden.

The content of the afternoon is designed to complement the KS2 year 5 National Curriculum learning objective of "Earth and Space". Throughout the sessions, students will be working in groups, participating in a number of workshops including, rocket building, experiencing a planetarium, building comets and creative writing focusing on space and the planets.

We truly believe that this will be a rewarding and enjoyable experience for your child, should you have any questions relating to the event please contact your child's school who will be happy to help,

Kind Regards,

Mr D Brown
Associate School Leader
